1. Gantt Forge — MIT License

The Gantt Forge client (the app you open in your browser or download as a folder) is free software. You may use, copy, modify, self-host and redistribute it, provided the copyright notice and this licence text stay with it. The name "Gantt Forge" and the diamond logo are trademarks: a copy or fork must use a different name.

Scope: this license covers the Gantt Forge client (index.html, sw.js,
manifest.json, icon.svg) — the free, local-first product. Third-party
libraries in ./vendor/ and the inline icon sheet carry their own licenses
(SheetJS xlsx: Apache-2.0; PptxGenJS: MIT; docx: MIT; Lucide icons: ISC) —

```
see license.html / LICENSE.pdf in the package for every notice in full. The
GanttForge+ hosted
service and its server-side code (./plus/) are NOT covered by this license
and are proprietary unless stated otherwise in that directory.

2. Supplied "as is, where is" — no warranty, no liability

Gantt Forge is supplied on an "as is, where is" basis. It is provided in its current state, with whatever faults it has, and with no promise of any kind — express or implied — that it is fit for your purpose, accurate, uninterrupted, secure, or free of defects.

You use it entirely at your own risk. To the fullest extent permitted by law, the author and copyright holders accept **no responsibility, ownership or liability whatsoever** for any loss or damage arising out of or connected with your use of it, including but not limited to:

- loss, corruption or non-recovery of any data, project or file, however caused — browser storage being cleared, a failed export or import, a synchronisation problem, or a defect in the software;
- any decision, commitment, schedule, budget, forecast, report or estimate made in reliance on the software or on anything it calculates, draws or exports, including percentages complete, critical paths and dates;
- loss of profit, revenue, business, goodwill, contracts or anticipated savings, business interruption, or any indirect, incidental, special, punitive or consequential loss;
- any cost of procuring substitute software or services.

This applies whether the claim is made in contract, tort (including negligence), breach of statutory duty or otherwise, and whether or not the author was advised of the possibility of such loss.

Your data and your backups are your responsibility. Gantt Forge stores your work in your own browser. You are responsible for exporting and keeping your own backups, and for checking that anything the software produces is correct before you rely on it. Verify before you commit.

Nothing here excludes or limits liability where it cannot lawfully be excluded or limited. If any part of this section is held unenforceable, the remainder continues to apply. Some jurisdictions do not allow the exclusion of implied warranties or of certain liabilities, so some of the above may not apply to you; in that case liability is limited to the minimum permitted by law.

The same terms apply to the Gantt Forge+ hosted tier, in addition to its own Terms.

3. Third-party components

Gantt Forge ships these components unmodified, from its own origin (never from a CDN), so the app makes no third-party requests. Each is the work of its own authors and is used under its own licence,

4. Gantt Forge+

The hosted tier (the "+" server) is separate, opt-in and proprietary — all rights reserved. It is never included in the free download. Using it is governed by the Terms and Privacy Policy.

5. Everything else

The interface, the scheduling engine, the report and export builders, the icon sheet assembly and the documentation are original work © 2026 Kannan Subramanian, released under the MIT License above. No fonts are bundled; the app uses the fonts already on your device.
